SPECIFICATION SHEET

Product Name	**2-Isobutyl-3-methoxypyrazine (Min. 95%), EU Natural / Kosher**	Product Code	**M3132**
CAS Number	24683-00-9	FEMA Number	3132
Molecular Formula	$C_9H_{14}N_2O$	Molecular Weight	166.22 g/mol

Specifications

Parameter	Specification	Method
Appearance	Colorless to pale yellow clear liquid	Visual
Odor (Organoleptic)	Green	Organoleptic
Assay	≥ 95.0%	GC
Refractive Index (n20/D)	1.4890 – 1.4970 @ 20 °C	Refractometer
Specific Gravity	0.9925 – 1.0025 @ 25 °C	Densitometer
Flash Point (reference)	80 °C (176 °F), closed cup	Literature

Odor description: Green pea, green bell pepper, galbanum.

Ingredient Source

The ingredient is a distillate from fermentation broth. The fermentation starting materials are sorghum, grains, sweet potato, wheat, and Tibet barley.

Process Methods

The process is a physical and continuous distillation and separation.

Storage Conditions

Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

Shelf Life

2 years if stored properly.
